INDEX.

A

Abdominal section, 602, 750
Abscess, pulmonary, 502
Adams, F. D., vital capacity of lungs, 816
Adrenal, hypertrophy of the, 292
Albino rats, recovery of weight in organs of, 119
Allen, F. M., terminal stage of a case of hepatic cirrhosis, 307
Alvarez, W. C., advances in gastric physiology, 609
Amebic dysentery, 590
Anders, J. M., transfusion of blood in pernicious anemia, 659
Anemia, pernicious, 471
  transfusion of blood in, 659
Anesthesia, obstetrical, during labor, 437
Aneurysm, aortic, 782
Aortic regurgitation, 319
Appendix, disease of, 604
Armstrong, G. E., localization of tumor metastases, 354
Arsphenamin, administration of, 891, 892
  reactions following administration of, 892
Arteriosclerosis, 668
Arthritis, meningococcus, 473
Ashbrook, C., syphilis as a community problem, 141
Asthenia, neurocirculatory, 35
Atropin in pneumonia, 590
Atwater, R. M., scleroderma and sclerodactyly, 29
Auto-intoxication symptoms, origin of so-called, 140

B

Bacilli dysenteriæ, 135
Bacillus abortus in bovine fetal membrane, 295
  botulinus poisoning, 57
  influenza, relation of, to the recent epidemic, 47
  tetani in vaccine virus, 760
  tuberculosis in tonsils of children, 432
Barker, R., pleural exudate complicating influenza, 577
Bile, effect of, on clotting time of blood, 294
Binger, A. L., isolation of the meningococcus from cases of so-called influenza, 360
Bladder diagnosis, 754
  function, study of, 607, 890
  tumors in women, 903
Blood from measles patients, 894
  in feces, precipitin test for, 449
  measured by red blood cells, 293
  in normal individuals, 907
  in pneumonia, 907
  transfusion, 711, 743
    in anemia, 659
  volume in hemorrhage and shock, 570
Bloodless reduction of dislocation of the hip, 270
Blood-pressure, arterial, 786
  measurements, 823
Bock, A. V., pneumonia as a complication of epidemic influenza, 407
Boggs, R. H., treatment of epithelioma by radium, 87
Bone grafts, 887
Brain, tumor of, 435
Bronchiectasis, 516
Bronchopneumonia, 689
  heart in, 649
Buerger, L., ascending renal tuberculosis, 482

C

Cancer in Hainan, China, 910
  of the tongue, 592
  uterine, 901
Carbon dioxide, 139
  tetrachloride vapor as a delousing agent, 762
Carcinoma in vitro, effect of *x*-ray on, 132
Cardiac diagnosis in army physical examinations, 773
Cardiovascular defective, 165
Carr, J. G., clinical aspects of pneumonia following influenza, 232
  influenza-pneumonia epidemic, 212
Carroll, J. H., asthenia, 35
Casualty clearing station, resuscitation work in, 268
Cecum, resection of, 590
Cesarean section, 603, 751, 899

Cesarean section for contracted pelvis, 752
extraperitoneal, 436
postmortem, following death from bronchopneumonia and influenza, 283
under local anesthesia, 751
Childbirth, maternal mortality of, 600
Children, backward, nervous and delicate, 746
malnutrition of, 595
Chorea, 275
autoserum treatment of, 121, 436
treatment of, 123
Clark, L. P., is essential epilepsy a life reaction disorder, 703
Cohn, A. E., cardiac phase of war neuroses, 453
Collins, J., imminent psychology, 510
Colon, resection of, 590
Complement-fixation in tuberculosis, 290
Conner, L. A., cardiac diagnosis in the light of experiences with army physical examinations, 773
Cornea, gas infection of, 906
Corpus luteum, physiology of, 284
Cramer, I. H., roentgenological determination of pulmonary tuberculosis, 871
Croup, influenzal, 272
Cunningham, A., medical casualties in British and American troops at a general hospital in France, 328
Cyanosis, studies of, 907
Cystitis, postoperative, 130
urine, bacillus isolated from, 137

D

Dakin's solution, 742
Delivery, normal, 752
Diemer, F. E., roentgenological determination of pulmonary tuberculosis, 871
Diphtheria, 760, 761
Diphtheroid infection of wounds, 294
Disease service, contagious, 595
Duodenal stenosis, 594
Dust hazard in the abrasive industry, 914
Dwinell, W. G., influenza-pneumonia epidemic, 212
Dwinell, W. G., laboratory report on epidemic pneumonia, 216
Dysentery, amebic, 590

E

Eclampsia, 753
postpartum, 125
termination of pregnancy in, 127
Ectopic gestation, 603
Edgerly, E. T., influenza-pneumonia epidemic, 212
Effort syndrome, 496, 818
Empyema, the management of postpneumonic, 1
Encephalitis, lethargic, 849
Endometritis, chronic, 605
Eosinophilia, 618
Epilepsy, a life-reaction disorder, 703
Epithelioma, by radium, 87
Eye, affections of, 288
human, diffraction in, 289

F

Fat metabolism of infants, 124, 597
in stools of children, 597
Femur, gunshot fracture of, 890
Fetal deaths during labor, 442
Fetus in utero, determining the maturity of, 439
Fitz, R., medical casualties in British and American troops at a general hospital in France, 328
Flora, putrefactive intestinal, 893
Food education, 138
factors in gastro-enterology, 297
Foods, value of, 120
Frick, D. J., epidemic of influenza at the Base Hospital, Camp Beauregard, La., 68
Friedenwald, J., perforated gastric ulcer, 179
Friedman, G. A., transitional leukocytosis, 545
Frothingham, C., diagnosis of late syphilis of the central nervous system, 312
Fruits, antiscorbutic properties of, 433
and vegetables, preserving of, 140
Funnel pelvis, labor complicated by, 749

G

Gas pains, prevention of, after obstetric operations, 444
Gastric physiology, 609
response to foods, 428
ulcer, perforated, 179
Gastro-enterology, food factors in, 297
Giffin, H. Z., eosinophilia with hyperleukocytosis and splenomegaly, 618
Glycosuria, 429
Goodall, J. R., vaccination by subcutaneous injection, 721
Goodman, D. A., relation of streptococcus hemolyticus to influenza and pneumonia, 202
Goodpasture, E. W., significance of certain pulmonary lesions in relation to etiology of influenza, 863
Granuloma, 557

Guinea-pig, resistance of, to tuberculosis, 291
Gunshot fracture of femur, 890

H

Haden, R. L., bacteriology of mumps, 698
Hart, T. S., heart in bronchopneumonia, 649
Heart in bronchopneumonia, 649
Hepatic cirrhosis, 307
Hernia, vaginal, 447
Herrick, J. B., rupture of an aortic aneurysm into the left innominate vein, 782
Herrick, W. W., meningococcus arthritis, 473
Hodgkin's granuloma, 557
Hopkins, J. G., epidemic of influenza among American troops in England, 370
Howard, C. B., polyglandular disease in acromegaly, 830
Howard, T., meningo-encephalitis as the only manifestation of mumps, 685
Howard, T., so-called war nephritis, 844
Humerus, fracture-dislocation of, 593
Hydrocephalus, experimental, 745
  hypophyseal dystrophy in, 431
Hyperglycemia, 429
Hyperleukocytosis, 618
Hypertension, 668
Hysterectomy, bloodless, 755
  factors of safety in, 286

I

Infancy, diarrheal diseases of, 435
Influenza, 577, 897, 911
  effects of, on pulmonary tuberculosis, 741
  epidemic of, 68, 80, 244, 271
    among American troops in England, 370
  epidemiology, 912
  etiology of, 863
  laboratory studies in, 723
Influenzal croup, 272
Influenza-pneumonia epidemic, 212
Intestinal flora, regulation of, 139
  parasite infections, 894
Intestine, mechanism of absorption from, 430

J

Jaw-winking, 905
Johnston, J. I., pneumohydrothorax, 105

K

Kahn, M. H., position of arm in blood-pressure measurements, 823
Keratoconus, treatment of, 289, 906
Kinnicutt, R., isolation of the meningococcus from cases of so-called influenza, 360

L

Labor complicated by placenta previa, 127
  by rupture and inversion of the uterus, 281
  by uterine inertia, 278
  in old primparæ, 125
Lacrimal passages, affections of, 905
Latham, J. R., lumbar puncture in causation of meningitis, 183
Lee, R. I., blood volume in hemorrhage and shock, 570
Leukocytosis, transitional, 545
Levin, M. B., relationship of streptococcus hemolyticus to influenza and pneumonia, 202
Lewis, P. A., syphilis as a community problem, 141
Losee, J. R., blood transfusion, 711
Lucke, B., pleural exudates complicating influenza, 577
Lumbar puncture in causation of meningitis, 183
Lungs, vital capacity of, 816
Lyon, M. W., Hodgkin's granuloma, 557

M

McCaskey, G. W., Bacillus botulinus poisoning, 57
McClelland, J. E., bacteriological observations on the epidemic of influenza at Camp Beauregard, La., 80
McConnell, G., relation of the Bacillus influenza to the recent epidemic, 47
McMahon, T., studies of cases of effort syndrome with measured work, 818
Malaria parasites, 912
  problem of the South, 913
  transmission, 912
Malnutrition in children, 595
Manson, F. M., influenza-pneumonia epidemic, 212
Manson, F. M., report of surgical service on epidemic of influenza, 244
Matz, P. B., laboratory studies in influenza, 723
Meader, F. M., epidemic of influenza among American troops in England, 370
Meagher, J. F. W., prominent features of the psychoneuroses in the war, 344
Means, J. H., epidemic of influenza among American troops in England, 370

Measles, 894
Mechanism of labor, 602
Medical aspects of reconstruction, 765
casualties in a general hospital in France, 328
Mendel, L. B., food factors in gastroenterology, 297
Meningitis, epidemic, 451
Meningo-encephalitis, 685
Menopause, 448
Metabolism, fat, of infants and children, 124, 274, 744
Microörganisms found in canned food, 758
Milk, fat breast, 900
powder, protein, 434
secretion, 900
toxic properties of, 746
Mitral stenosis, 319
Mole, an interesting, 753
Moschcowitz, E., hypertension, 668
Mumps, 685
bacteriology of, 698
Myxoma of the heart, 689

N

Narcotic drug addiction, 450
Neo-insertion of the round ligaments, 754
Nephritis, 668
Nephrolithiasis, water in, 903
Nephropathy induced in the dog by uranium nitrate, 449
Nerve injuries, 593
Neuroses, war, 453
Newborn, cerebral hemorrhage of the, 95
Newborns, acidotic state of normal, 434
Newcomer, H. S., syphilis as a community problem, 141
Newton, R. C., enlarged thymus gland, 534
Norton, W. H., myxoma of the heart simulating bronchopneumonia, 689
Nutrition, problem of, 839

O

Obstetric operations, 126
science and art in service of the nation, 438
Obstetrics and gynecology, teaching of, to medical students, 282
teaching of, 281
Occupation and mortality, 913
Ocular syndrome of hypertension in wounds of the cranium, 288
Oertel, H., localization of tumor metastases, 354
Orange juice in constipation, 598
Organotherapy in diseases of childhood, 896
Ovary, chorionepithelioma of, 132

P

Pancoast, F. J., relation of streptococcus hemolyticus to influenza and pneumonia, 202
Pandemic disease, unidentified, 397
Paraffin for disinfecting needles and syringes, 742
Pardee, H. E. B., murmurs of mitral stenosis and of aortic regurgitation, 319
Parkhurst, G. M., meningococcus arthritis, 473
Peet, M. M., problem of nutrition, 839
Perineum, incision of, 127
Physiology, gastric, 609
Pituitary body, operations upon, 889
extract in obstetric practice, 441
Placenta, chemical constitution of, 128
effect of, on growth of fetus and newborn child, 437
injection of fluid into, 599
method of delivering, 899
previa, 127
transmission of malaria through, 600
Pleural exudates complicating influenza, 577
Pneumohydrothorax, 105
Pneumonia, clinical aspects of, following influenza, 232
following influenza, 139
and influenza, creosote in, 271
influenza epidemic, 212
laboratory report on epidemic, 216
prevalence of, 140
prophylactic vaccination against, 33
Pneumonias following injections of arsenobenzol, 889
Polyglandular disease in acromegaly, 830
Pottenger, F. M., pulmonary abscess, bronchiectasis, pulmonary pneumonia, 502
Pregnancy, abdominal, 897
complicated by epidemic influenza, 897
in sporadic cretinism, 900
at term, abdominal, 441
tuberculosis of, 601
Pregnant woman, heart of the, 283
Primipara, incision of perineum in, 127
Prostate, enucleation of, 888
Prostitutes, mental deficiency of, 759
Psychology, imminent, 510
Pubiotomy, 898
Puerperal fever, 440
Pulmonary abscess, 502
lesions, 863
Pyloric obstruction in infants, operation for relief of, 439
stenosis in infancy, 276

R

RADIUM in genital cancer, 606
treatment of epithelioma by, 87
of uterine cancer, 901
Rectal cloaca, permanent, 445
diseases in infancy and childhood, 277
Renal tuberculosis, 482
